The President of the United States takes pleasure in presenting the AIR MEDAL (Gold Numeral 1 to indicate first award) to

GEORGE BYERS DOM, LIEUTENANT COMMANDER
UNITED STATES NAVY

for service as set forth in the following
CITATION

"For heroism and extraordinary achievement in aerial flight as a pilot attached to Strike Fighter Squadron EIGHT TWO, embarked in USS AMERICA (CV 66). On 19 January 1991, Lieutenant Commander Dom was part of a dual-carrier strike force against an Iraqi Scud missile production facility, southwest of Baghdad. He was assigned to attack a small missile production plant crucial to the successful production of Scud missiles used to terrorize civilian populations. Although it was his first combat flight, he performed with cool, calm, and superior professionalism. Despite enemy surface-to-air missiles, intense anti-aircraft artillery, he aggressively positioned his aircraft for optimum weapon's accuracy and maximum target damage. As the strike egressed south, it was pursued by enemy fighters flying supersonic overtake profiles. Twice, Lieutenant Commander Dom and his wingman conducted intercepts on bandit groups driving them away in spite of their critical fuel states. By his professional ability, courageous action, and selfless dedication to duty in the face of great personal danger, Lieutenant Commander Dom's courageous leadership and aerial skill reflected great credit upon himself and were in keeping with the highest traditions of the United States Naval Service."

The Combat Distinguishing Device is authorized.

The President of the United States takes pleasure in presenting the
DISTINGUISHED FLYING CROSS to

LIEUTENANT COMMANDER GEORGE R. DOMA
UNITED STATES NAVY (b)(6)

for service as set forth in the following

CITATION:

For heroism while participating in aerial flight as a Pilot of an FA-18 aircraft while serving with Strike Fighter Squadron 82 embarked in USS AMERICA (CV 66) on 2 February 1991. During Operation DESERT STORM, Lieutenant Commander Doma was the designated Strike Leader of a bombing mission against Iraqi Army tanks, artillery, and armored personnel carriers in the Kuwaiti Theater of Operations. This complex mission covered over 1,500 miles and multiple refueling from United States Air Force KC-135 aircraft. During the mission, he demonstrated outstanding leadership, superb airmanship, and total commitment to mission success. Although a broken cloud deck and heavy black smoke from burning oil wells obscured the primary attack axis, Lieutenant Commander Doma aggressively maneuvered his strike group to achieve target acquisition and coordinated a devastating multi-axis attack. Despite dense enemy anti-aircraft artillery fire and a barrage of surface to air missiles at the target, numerous tanks, artillery batteries, and Iraqi Army command posts were destroyed. Lieutenant Commander Doma's stalwart leadership, aggressive performance, and courageous devotion to duty reflected great credit upon himself and were in keeping with the highest traditions of the United States Naval Service.

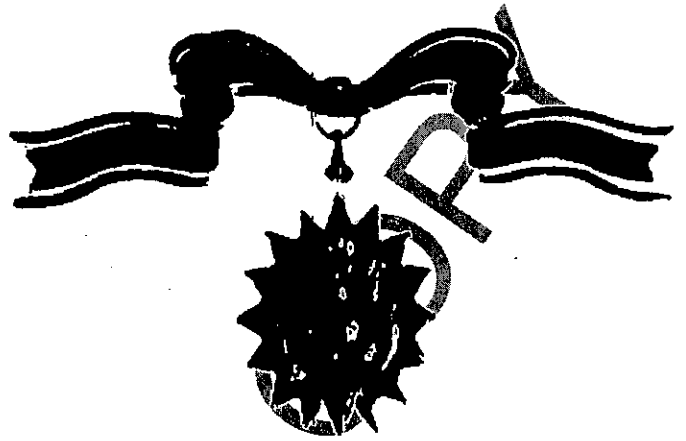

The Combat Distinguishing Device is authorized.

On 28 January 1991, Lieutenant Commander Dom was part of an air wing strike force against mobile Scud missile launchers and maintenance facilities in central Iraq. His flight's target was crucial to the launch of enemy Scud missiles used to terrorize allied civilian populations. Although the strike route put them at great risk from enemy fighters, he led his section with cool, calm, and superior professionalism. Despite enemy surface-to-air missile radar activity, dense anti-aircraft artillery, and a camouflaged target, he aggressively positioned his flight for optimum weapons accuracy and maximum target damage. "For professional achievement in the superior performance of his duties while serving as Quality Assurance Officer of Attack Squadron ONE FOUR SIX from 17 April through 17 May 1982. Lieutenant Dom took control of a division which performed in an excellent fashion, but one in which major discrepancies had been noted during previous maintenance inspections. He painstakingly began to improve it by surrounding himself with the talent and expertise to do the job, thoroughly updating all squadron maintenance instructions, revitalizing all Quality Assurance monitoring programs and becoming intimately familiar with all maintenance procedures. Lieutenant Dom's personal example imbued within each of his peers and subordinates alike greatly enhanced ideals of professionalism, perseverance, and motivation. As a result, his division was judged as the best Quality Assurance Division in the Light Attack Wing, U.S. Pacific Fleet during the squadron's Post-Deployment Aircraft Material Condition Inspection on 16 and 17 May, 1982. His singular efforts are directly contributory to the squadron's unmatched record of 119,000 flight hours since its last maintenance-related mishap. His actions reflected great credit upon himself and upheld the highest traditions of the United States Naval Service."
